SULTAN WISHES ALL WELFARE

Turkish Ruler Addresses Patriarchs, on His Anniversary, at Constantinople.

IN FAVOR OF PEACE

Inform His Hearers That Acts of Lawlessness Were Committed Against His Wish.

Constantinople, Sept. 4.—On the anniversary of his accession Sept. 1 the sultan received in audience at the palace the heads of the religious communities and the ecumenical patriarch made speech of congratulations. In reply thereto, after thanking the patriarch and the others present for their good wishes, the sultan, contrary to precedent, spoke at some length as follows:

"All my desire is for the welfare of the population without distinction of race or religion. As to the 'restable and regrettable deeds to which the patriarch alluded, I am convinced that the movement does not proceed spontaneously from the population, but is instigated from abroad. I hope the measures taken will insure tranquility. I call God to witness the sincerity of my declaration, and that all my aspirations and work are for the welfare and prosperity of all my subjects."

Turning them to the Bulgarian patriarch the sultan bade him communicate his words to his flock.

Words Apply to All.

Next addressing the Greek patriarch the sultan said he regretted that the Greek population had also suffered from the recent troubles, and declared he would be pleased to contribute to the subscriptions being raised in the patriarchate in behalf of the sufferers. The sultan further remarked that he was very sorry that some of the soldiers had been guilty of acts contrary to his orders.

The sultan personally assured Mr. Ormanian, the Armenian patriarch, that his words applied to the Armenians as well as to the people of other nationalities.

Official reports say that the Turks on reoccupying Kilissura, Albania, killed 200 insurgents. It is also stated that the inhabitants of the coast villages are returning to their homes.

PROCLAIM LIBERTY.

Extract From Document Issued by the Macedonian Committee.

Sofia, Sept. 4.—A special dispatch from Rila, near the Turkish frontier, says a courier has arrived there with a copy of the proclamation of a general insurrection, which has been daily awaiting. The document is addressed to "Our brethren in Macedonia and Adrianople," and begins by congratulating them upon the heroic fight they have already waged. The proclamation proceeds:

"Armed only with your own strength against a mighty empire, against pitiless foes, with the power of your right hand and the might of your spirit you have shaken the hateful Ottoman dominion. A hundred thousand of the sultan's soldiers and an innumerable infidel mob were unable to resist your advance. You have sacrificed everything before the altar of liberty. Your villages were burned, your homes pillaged, your children massacred and your sisters, wives and mothers violated.

"A succession of valiant champions has persisted in the struggle and dyed the fatherland with their dear blood, but with greater zeal you have embraced the fight. Your smoking hearths have strengthened your manliness; the cries of the children and the moans of the women exasperated your souls. From the breasts of the fatherland came new champions replacing those who have perished. The holy flag of liberty waves more proudly over the dear fatherland. Your enemies are rendered speechless before your heroism. The forces of tyranny are exhausted. New days have come. One more heroic stroke and the centuries of tyranny will fall to the ground in convulsions of death.

"The dawn of liberty peeps already above the Macedonian horizon and awaits this stroke to shine with its full brilliancy on the Macedonian land. Prepare yourselves, then, for this stroke. Be at your posts. The hour for the battle strikes. The cry of liberty or death will break the chains of slavery and bring the triumph of justice."

The proclamation is signed "From the Supreme Central Government."

More fighting is reported from the district of Debre. The Turks attacked the revolutionaries at the village of Dambent, and both sides suffered heavy losses. A company of Albanian troops passing through the valley of Kitescher was slaughtered by revolutionaries.

YOUNG EDSON IS THE EMBEZZLER

SON OF FORMER MAYOR ROBBED CHURCH.

FAMILY TOO POOR TO SETTLE

Relatives Cannot Make Good the Shortage, Which May Reach \$75,000.

(Special By Scripps-McRae.)

New York, Sept. 4.—Harry Towns-
end Edson, ex-Mayor Edson's son, who
on Wednesday morning shot and
killed Mrs. Fanny Pullen and then
himself, was a forger and an embezzler
to the amount of between \$50,000 and
\$75,000.

Edson obtained this money from St. Michael's church, by which he had been employed for the last four years. He obtained it by forging notes and checks and by pilfering from the cash which passed through his hands as clerk. The exact amount of his stealings is not known yet, for the church authorities did not discover until last Thursday that they had been robbed. Since then the rector, the Rev. John P. Peters, and members of the vestry have been keeping the matter secret until a careful examination showed the exact amount of the loss to the church.

Books Show Shortage.

The investigation was started on Tuesday, when expert accountants went to work on the church accounts. While it was going on Edson, crazed by the discovery, shot the wife of his friend and put a bullet through his own brain.

Although it came out on the day of Edson's murder and suicide that he had stolen money from the church, those aware of the amount of his stealings, an amount which would mean disaster to a less wealthy parish, preserved the reticence that they have maintained from the time the truth was first made known to them.

The facts were learned from members of the vestry, who decided it would be futile to attempt to conceal the real situation.

Family Cannot Pay.

Just what will be done to reimburse the church is yet undecided. The members of his family have told the church authorities that, much as they would like to pay back every dollar of the amount he stole, they see no way of paying back anything like the full sum, even if it reaches the lesser estimate now made.

The amount known already to be gone is made up of a note for \$25,000 and checks aggregating \$1,000. All of this and more Edson is believed to have lost in Wall street.

As a preliminary to recovering a small part of this, the family has agreed to permit the church to take possession of the furniture and effects in Edson's flat, and these are to be sold at auction. The proceeds will go to reimburse the church.

GOVERNMENT IS FIRM IN REGARD TO PANAMA

Minister Beaupre Is Notified That the United States Will Permit No Amendments to Treaty.

Washington, Sept. 4.—Instructions have been cabled Mr. Beaupre, the American minister at Bogota, reiterating the government's position regarding the canal treaty.

The government wants the members of the Colombian congress to understand plainly that it will consent to no modifications or amendment of the treaty, and that it regards the terms given by the United States as the most liberal that could be obtained by Colombia under the law. It is definitely explained that the Central American republic must accept the rejected treaty as it stands or lose the opportunity of having the canal in its territory.

A report that the Colombian government is trying to make an arrangement with the new Panama canal company of France, by which part of a \$40,000,000 to be paid to the company shall be given to Colombia, is credited here, but there is no definite information at hand that any such advances have been made by Colombia.

In the meantime Dr. Herran, the Colombian charge, will be asked as to the truth of his reported criticism of Minister Beaupre's activity at Bogota. The alleged criticism by Mr. Herran was not well received at the state department.

JEFFRIES IS TO MEET MONROE

Champion Will Fight Butte Man in Los Angeles Oct. 16.

Los Angeles, Cal., Sept. 4.—Champion James J. Jeffries and Jack Monroe have agreed to meet in this city Oct. 16 for a twenty-round contest. Jeffries has signed articles to fight Monroe, who hails from Butte, for a decision, the Century Athletic club to take 25 per cent of the gross receipts and the contestants to divide the remaining 65 per cent on a percentage to be determined by them. Manager McCarty of the Century club wired Jeffries' signature and the terms of Monroe, who is in New York city.

RELIANCE, THE AMERICAN BOAT, HAS NOT A YANKEE IN ITS CREW

Janesville Scandinavians Call Attention to Credit That Has Been Wrongly Bestowed Upon the Yankee Sailors.

Among her citizens Janesville has a large element of Scandinavians, whose pride in their native land is only equaled by their loyalty to the country of their adoption. It is only natural that they should be jealous of any honors of which their countrymen have been robbed, and they therefore call attention to an editorial from the Skandiaen, a newspaper published in Chicago, which speaks clearly for itself.

Among Janesville families, there are men and women who were born and spent several years of their lives in Bergen, Larvik, Holmestrand, and other towns on the east coast of Norway, whence come many skilled sailors. Christians, the home of several of the sailors, has also furnished Janesville with some of its stanchest citizens.

The editorial follows:

A Yankee Crew

Still, Shamrock III might do wonders with a Yankee crew.—Chicago Daily News.

Perhaps she could. In days gone by the fame of the Yankee sailor was wafted by the winds across the seas. But in defending the famous cup he has been courageous by his absence. In previous races the crews of the cup defenders have been made up largely of Scandinavians in whom the managers of the "Reliance" likewise placed their reliance. Here is the roster of the victorious American yacht:

Captain, Charles Barr, Scotchman. First Mate—Chr. Christensen, Arendal, Norway. Second Mate—G. Pederson, Arendal, Norway. Third Mate—Harry Nielsen, Aalesund, Norway.

Who They Are

Crew—G. Gunderson, H. Herald.

CONSTABULARY KILLS TWENTY INSURGENTS

Engagement in Cavite Province Is Fatal to the Rebel Band—Re-enforcements Are Sent.

Manila, Sept. 4.—Twenty insurgents were slain in a sharp engagement with the Jolo constabulary in Cavite province, near Laguna de Bay. One member of the constabulary was killed.

Re-enforcements have already left Manila for the scene of the disturbance to subdue the insurgents, who have taken up a strong position in the mountains which flank the Laguna de Bay.

The legislative council for Moro province has been organized in accordance with the bill recently enacted by the Philippine commission providing for the government of the Moros. This council is composed of a governor, secretary, treasurer, engineer, attorney and superintendent of schools. The province will now be within the jurisdiction of the Philippine courts and constabulary. Moro laws being recognized when not in conflict with American laws.

WILL SOON BE
OPEN EVENINGSRUSHED SEASON AT LIBRARY TO
BEGIN SHORTLY.

SCHOLARS HAUNT BUILDING

Students in Public Schools Make Ex-
tensive Use of Books—Refer-
ence Works Most Used.

The dull season at the library is drawing to a close and within a week or ten days it will be opened every evening of the week. The circulation which now amounts to about 75 books a day will gradually increase to 300 or thereabouts, and there will be no rest for the librarian and her assistants except on Sundays and legal holidays.

No New Books

The library board is proceeding very cautiously with the funds at its disposal. It is not known yet how much it is going to cost to heat the new building and until some estimate can be secured no more new books will be purchased. None have been bought since last spring and the library is therefore a trifle behind the times.

Janeville Reads Fiction

This state of affairs is only temporary however. A considerable amount has been expended during the summer in filling out incomplete sets of magazines such as the Atlantic Monthly. The appropriation made by the city for running expenses is \$3,500 per annum. This fund becomes available in September. About seventy per cent. of the books drawn in the busy as well as the dull season belongs to the class of fiction. The percentage is approximately the same in all of the neighboring cities.

Ready for Scholars

The reference books have been placed in order for the opening of the schools on September 14. A great increase in the attendance at the reading rooms will be noticeable at that time, and many of the scholars are spending all their spare hours out of school in poring over the historical, literary, and scientific works. The latter class of books are usually not taken from the building, however, and the percentage of fiction in the actual circulation will therefore remain about the same.

TASTEFUL GROUNDS
AT WATER STATION

As viewed from South River street the pumping station has a setting with its surrounding lawn and shrubbery, that few buildings that are used for a like purpose can equal. From the interior of the engine room to the velvety lawn that stretches out on all sides of the structure, everything is in fine condition.

After several months of chaos, while the boilers were being changed and other alterations made, during which time the lawn or part of it was covered with rubbish and building material, the grounds are now cleared up and the grass has had a chance to grow. The work was finished some weeks ago but it has taken considerable time for things at the station to resume their usual appearance.

On each side of the walk which leads to the main entrance, two large trees have been painted and used with pretty effect as flower pots. Rows of potted plants are kept along the front of the building as well as clusters growing in well kept beds. To the left of the walk is the fountain, a pyramid of irregular shaped stones in the center of a small basin which adds much to the general effect of the lawn. Then further to the left are several star and crescent shaped flower beds containing a variety of flowers, geraniums and nasturtiums predominating, while around the dome of the well are masses of golden colored blossoms.

Further back are several groups of hardy plants and bushes which form an appropriate setting and the vines clinging to the walls on all sides and spreading out on the wires that radiate from the building give a cottagelike effect.

GOOD SCORES AT
THE GUN SHOOT

Forty-two out of forty-five targets is Will McVicar's record for yesterday afternoon's shoot of the Janeville Gun club. A perfect afternoon aided all the scores which were made, and, although the number of contestants was small, the shooting was of as high a standard as any this year.

The scores follow:

	10	10	15	10
J. M. McVicar	6	8	11	8
E. Roesling	10	8	12	7
W. Koebel	6	5	8	7
H. Van Galder	5	4	8	6
C. Tallman	8	9	12	6
W. McVicar	10	9	14	9

Katzmark-Duller

Arthur Duller, 157 South Jackson street and Miss Frances Katzmark, Ravine street, were wedded at Rockford yesterday afternoon, making the round trip on the interurban road and securing a license under the laws of the state of Illinois.

Special meeting of Rock River Hve. No. 11, L. O. T. M. at East Side Odd Fellows' hall, Saturday, Sept. 5th, at 8 p. m. Every member is requested to be present.

By order of Lady Commander, Effie Gibson, Anna H. Klenow, R. K.

Mrs. Wm. E. Buck and son Frank returned to her home at Louisville, Ky., having spent the summer with her mother, Mrs. A. J. Connell.

MORE FIRE CALLS IN JANESEVILLE
THUS FAR THIS YEAR THAN LAST

Department Has Been Summoned Seven Times in 1903 in Excess of the Same Time a Year

Ago—Fifty Alarms Until Now.

So far this year the fire department has answered seven more calls than at the same period in 1902. Including the last call which sent the men out on the wild goose chase up Milton avenue day before yesterday, the horses have responded to the alarm gong and run to their places in front of the apparatus, just fifty times since last year they answered to forty-three calls in a like period.

April is the record month for the greatest number of fires thus far this year and it is likely to hold that distinction for the records which extend a long way back all show that the spring of the year is the time for the greatest number of conflagrations. In this month last spring there were fifteen fires, mostly chimneys, and the boys have considerably practiced each year at that time in taking care of this kind of trouble.

House Cleaning Responsible
After steady usage all winter chimneys are often in the spring time in fine condition to catch a spark and start a blaze, being full of soot.SWOLLEN RIVER
BLOCKED CLUBLAUNCH ORGANIZATION INTEND-
ED TO MAKE IMPROVEMENTS.

PASSAGE WAS TOO NARROW

Owners of Gasoline Craft Found Hindrance to Navigation Could
Not Be Removed This Year.

Owing to the continued high water most of the improvements planned for this season by the Janeville Launch club have been postponed either until later in the fall or next year. A part of the work that has been talked over and suggested by the owners of the many gasoline and other launches that ply the river above the dam, is the removing of rocks from the channel.

"There's where the Indians are giving Hiawatha," said one of the deck hands, pointing out across the lake.

"Hiawatha," I answered, "What is that?"

"Oh, it's one of Shakespeare's novels, but it has been dramatized since," he replied with entire composure.

About eight miles above Crystal Springs park, along what are known to river navigators as the "narrow," there are many sunken rocks and other obstructions and it was the intention of the boat owners to have some or all of these hauled out from the river bed and put in some place where they could do less harm. Steering the swiftly running launches through this part of the stream will then be easier and it is hoped that the partial clearing of the channel will afford greater safety in the passage of the boats and their passing each other up and down stream.

Troubled by Obstacles
There was a number of other obstructions in different parts of the river scattered all the way from the dam up to the limit of navigation for the larger launches. Most of these are sunken and waterlogged timbers and decaying stumps.

The danger signals that were placed on some of these dangerous objects have not been stolen during the last two months although several were taken away earlier in the year. While extremely low water during the dry months of some summers, makes the steering of the craft higher up river a risky business, very high water is also objectionable as the landmarks that show the channel are oftentimes covered while the former bed of the stream frequently changes so that the danger of running aground is greater.

TREATMENT OF HORSES.

A correspondent in the New York Herald submits the following sensible statement about horses:

"I remember reading once in a Boston paper something to this effect: 'Tie a horse up in the sun, cut his tail off, check his head high up, and if he is a horse of common sense he will take the first opportunity to run away with you and dash out your brains if you have any.'

"Would that these words of genuine common sense could be proclaimed throughout the world! Through the most stupid ignorance or inexorable thoughtlessness is the patient animal tortured half to death. Nor does even tender woman protest. Without a thought does she gladly take her place in a carriage to be pulled by the most wretched of the wretched. If the horse is lame or has wounds underneath the harness she sees it not; if the flies are tormenting the mutilated horse she sees it not; without having any idea of the miseries of the creature in front of her she blindly drives on and enjoys the drive, she who with the force of her womanhood should protest.

"These are the thoughts which come to my mind when I see a runaway. The horse cannot rebel and fight his own cause. But sometimes justice will work her own way. And who can deny that justice plays her part when the outraged horse, frightened out of his wits, in his turn runs away and frightens the drivers who by their silence at best are partakers in the monstrous crimes committed against the uncomplaining slave?"

"I happened to see a runaway the other day. The woman who was in the carriage stepped out half fainting, but in her fright she had at least the consolation of receiving sympathy on all sides. But who sympathized with the horse, that outraged being? Who thought of him? He was at least as frightened as the woman. Such scenes do honor to man, and a chivalrous nature burns with anger—and it is righteous anger."

If there is any animal that deserves better treatment than he receives, it is the horse. Unable to defend himself, yet frequently possessing more intelligence and more sense than the driver, as is frequently subjected to all sorts of neglect and abuse.

A high spirited animal was recently taken from buggy, where she had done something to displease the driver, tied up on the barn floor and malled with a broom handle. The next time she was hit up she ran away. The horse had more sense than the driver, as is frequently the case.

It is no uncommon sight to see a horse suffering under the torture of an overdrawn check, with every muscle of the neck aching like the toothache. The human spleety, could do no better work than to have this instrument of torture abolished. When a horse is called on for work he is entitled to all the freedom of movement possible. Nature intended him to breathe through his nostrils and when his head is drawn out of shape and his mouth pulled open, he is no more fit for work than a man would be with a gag in his mouth.

The society for the prevention of cruelty to dumb animals, located in Boston, is doing much for the relief of the horse. The work is most commendable, and should be introduced in every city in the land.

THE SILK INDUSTRY.

The imports of raw silk in the fiscal year just ended were the largest in the history of the government. Statistics just compiled by the Department of Commerce and Labor, through its Bureau of Statistics, show that for the fiscal year ending June 30, 1903, 15,271,340 pounds of unmanufactured silk, valued at \$50,011,819, were imported as compared with 14.2 million pounds in 1902 and 10.4 millions in 1901. From

this silk our manufacturers will make finished products valued at over 125 million dollars.

Of the 50 million dollars' worth of unmanufactured silk imported practically one-half comes from Japan; the raw silk from that country in the fiscal year just ended being valued at 24.6 millions of dollars. Italy furnished nearly 13 millions; the Chinese Empire 8.9 millions; France 2.2 millions, and all other countries only a little over \$300,000 worth of raw silk. Besides this, there was a little over a million dollars' worth of silk waste imported, which is used principally in making "spun silk," and is classed as unmanufactured silk in the statistics of imports.

Many attempts have been made to produce raw silk in this country. As early as 1623 mulberry trees were required to be planted by all settlers in Virginia, and some silk was grown in the early days of the colony. In the second quarter of the last century the cultivation of silk seemed to give promise of success, but the enterprise degenerated into a speculation in Chinese mulberry trees, and ended in utter failure. The recent experiments of the Department of Agriculture are again directing attention to the practicability of raising on our own farms a share at least of this material, which forms so considerable a part of our imports.

During recent years the importation of raw silk has increased almost continuously until in the fiscal year just ended it amounted to over 50 million dollars. The nearest approach to this value was in 1900, when forty-five and one-third millions of dollars' worth was imported.

The weather this week has been propitious for both the fair and the governor. It is to be hoped, for the sake of "God's patient poor" that the sun will continue to shine. The people are suffering from enlightenment. They have borne the burdens long and patiently without knowing it. The state is prosperous but that cuts no figure with the chief executive when he starts out to raise a disturbance. His hot air factory is running over time, and his freight bills are necessarily appalling.

The Berlin Machine Works men, who return to work, are required to take an oath that they do not now belong to a union, and will not join an organization of that kind while in the employ of the company. Some 500 men have been out for 16 weeks and they have discovered that work is more profitable than loyalty to a union. Mr. Hogan, the labor agitator who formerly lived in Janesville is criticised severely for conditions that exist in Beloit.

Five senators who were associated with Senator Whitehead as the finance committee, have written him, denouncing the governor's public utterances. The course of campaigning in which the chief executive is engaged is not creditable, and will fail to be of service as a vote getter. While the people are open to argument, they are entitled to the whole truth.

The September number of the Engineering magazine is responsible for the statement that the United States has 987 urban and interurban railway companies, operating 22,500 miles of track. These companies employed last year 136,611 wage earners and paid out over \$80,000,000 in wages. The total income was \$250,000,000 and total expenses \$220,000,000. The roads carried about six billion passengers.

Wm. E. Casey, the man who succeeds Chas. M. Schwab, as president of the United States Steel corporation, is 37 years old. He is a self made man, having worked his way from a humble position. His education is of the practical sort, but he knows what he knows and possesses the ability to apply the knowledge.

The little republic of Colombia appears to have gone daffy over the Panama canal. With a concession of \$10,000,000, and a quarter of a million more thrown in as annual rental, it would seem to be the most profitable asset that the country possesses.

The soft smoke that settles over some portions of the city suggests that a smoke ordinance would add to the comfort of many citizens. Smoke consuming boilers are both practical and economical and they should be more generally used.

The editor of Gnatton's magazine is a warm supporter of American labor unions but in the August number of his publication he defends the "open shop," on the ground that unions under present management are despotic and unreasonable.

DISABLED SHIP REACHES PORT

Barbarossa Delayed by Break in Starboard Tall Shaft.

New York, Sept. 4.—The disabled trans-Atlantic liner Barbarossa has arrived at Sandy Hook. The starboard tall shaft had been broken in mid-ocean and the vessel stunned to port with the port engine. The Barbarossa left Bremen Aug. 22 for this port, touching at Southampton Aug. 23. She has on board 572 cabin and 1,150 steerage passengers.

COTTON PRICES FALL ON GOOD CROP REPORT

Bull Movement Is Checked by Drop of Forty Points in the September Option.

New York, Sept. 4.—The bull movement in cotton, which met with a setback on Wednesday, received another shock Thursday on the publication of the government report. Prices dropped 40 points, or \$2 a bale, on September, and 20 points, or \$1.20 a bale, on October. The declines in December, January and March ranged from 20 to 15 points lower than Wednesday night's closing, and 1,000 bales changed hands during the day.

The selling began before the receipt of the government report, which showed the condition of the crop as \$1.2, compared with \$4 for last year and 79.7 last July. Prices for September dropped abruptly some 20 points before the report came out, and it was freely said around the exchange that the figures on the report had leaked. The highest percentage looked for was 79.

The amount of the selling after publication of the report led to rumors that the bull clique was selling heavily. It is certain that many of its followers did so. Col. Brown, the leader, said that he had made no effort to support the market, holding at present only 90,000 bales, which he expected to market easily. He is still in bull.

The market continued semi-painfully during the day, and prices closed at about the lowest points of the day—September at 11.12c, a loss of 42 cents, or \$2.10 a bale, and October at 10.12, a loss of 31 points, or \$1.60 a bale. The other months lost less in comparison, but closed much under the high prices.

ASK FUND FOR OLD PREACHERS

Southern Methodists Raising \$6,000 for Superannuates.

Moile, Mo., Sept. 4.—According to a statement made by the Rev. Dr. Watkins before the Missouri conference of the Methodist Episcopal church, South, the Endowment Fund association proposes to raise \$5,000,000 for the benefit of aged and infirm Methodist preachers in the United States. Dr. Watkins said that the Texas conference gave \$14,000 and the Mississippi conference \$13,000. The collections here were more than \$3,500.

HAWAIIAN JAPS PLAN A UNION.

Propose Organization to Better Condition of Those in Islands.

Honolulu, Sept. 4.—The 7,000 Japs in the Hawaiian Islands are being organized in one body, with Consul Saito as president of the society. The objects of the organization are manifold, it being the intention of the organizers to better the conditions of the Japanese population in every possible way. One of the chief objects will be the settlement of labor difficulties involving Japanese employees.

It is proposed to establish hospitals for the Japanese and schools for the children, and to counteract as much as possible the tendency in some section of the Japanese population to lead a life of idleness and ignorance.

REPORTS SMALLPOX AT SMYRNA

Epidemic Among Population Picking Figs for American Market.

Washington, Sept. 4.—The treasury department has referred to the marine hospital service a dispatch from the consul at Smyrna saying that smallpox is epidemic there among a population engaged in picking figs for the American market. Six deaths a day are officially reported, but the consul believes the actual number is three times as large. It is probable that orders will be issued forbidding importation for the present from that point.

NAVAL RESERVE OFFICER QUIT

Adjt.—Gen. Scott Accepts Resignation of Lieut. Crossman.

Springfield, Ill., Sept. 4.—Adjt.-Gen. Scott has issued an order accepting the resignation of E. V. Crossman as Lieutenant, 3d division, second ship's crew, Illinois naval reserves of Alton, and ordering an election to be held in Alton Sept. 15, 1903, to fill the vacancy. Lieut. Crossman is the officer who was commanded in orders issued by the secretary of war for his excellent work in patrolling the river and the city of East St. Louis during the flood of last spring.

MOTHER IS NOT TO PROSECUTE

Protects the Son Who Robbed Her of a Fortune.

Baltimore, Md., Sept. 4.—Judge Daniels of the Circuit court of this city has signed an order removing William T. Tucker as executor of the estate of his father, the late Wesley T. Tucker, a leading shoe merchant. Tucker is accused by his mother of abstracting from the estate and converting to his own use \$500,000. Tucker and his mother are the only heirs to the estate and she announces that she will take no further legal steps against him.

WHERE DID YOU GET THE SHOES?

RAGGED MAN ARRESTED, WHO HAS \$4 FOOTWEAR.

SAYS HE IS FROM MISSOURI

Brown Says, "You'll Have To Show Me"—Wanted To Sell the Suspicious Articles.

"Where did you get those shoes?" asked Officer John Brown this morning as he laid a heavy hand on a suspicious looking character, who was striding along at a rapid gait on one of the back streets. The fellow wore a faded black coat, the tails of which bulged considerably in the region of the back trouser pockets. He gave a start as he felt the officer's hand on his shoulder, but with an aggrieved air of injured innocence replied: "What shoes?"

Tried to Sell Them

The officer indicated the location of the leathers and the prisoner said in a surprised tone of voice, "Oh, those; why of course I bought them in St. Paul." "And where are you from?" said the terror of evil-doers.

"I am from St. Louis, Missouri," replied the man with the shoes.

"Well; you'll have to come along with me," said the officer.

The presence of the man in the city was known early this morning when he attempted to sell a brand new pair of shoes of \$4 quality at one of the second-hand stores.

May Have Carload
As the fellow was poorly clad and his movements did not look honest the officers were at once informed. They are making a quiet investigation to discover the source of supply if possible. It may develop that a car has been broken into.

MOST MODERN OF PLACES

Wilbur's North Main Street Saloon is Well Fitted Throughout.

During the past month carpenters and decorators have been busily engaged in the remodeling of the store at 16 North Main street, the same now being utilized as a saloon side the place is sufficient for one to easily see that the proprietor, Mr. Wilbur has spared no expense in beautifying the place from one end to the other. The fixtures are in golden oak and are of massive design being purchased regardless of expense of one of the leading bar manufacturers in the city of Chicago.

The large mirror is offset by massive pillars of oak. Numerous electric lights circle the top of the bar, giving the whole a rich appearance at night. The ice box is of oak and numerous costly mirrors front it. It is only in justice to Mr. Wilbur's place to state that its equal in Janesville has never before been known. The general proprietor is well known in all sections of Rock county. For a number of years Mr. Wilbur was connected with the Hotel London. His many friends will join in wishing him success.

NEWS OF THE CITY IN BRIEF

Milton Junction Team Here: Part of the Milton Junction baseball team went through here this morning en route to Monticello where they will help the boys of that town to beat a nine from Freeport this afternoon.

Barley is Wanted: Milwaukee buyers are taking up all the good barley in sight in a hurry this week as there is a demand that for some time past although as soon as receipts increase, prices are liable to go down.

In the Courts: William Grimes was tried on the charge of assault and battery before Judge Field yesterday afternoon. He was given his choice of a fine of \$3 and costs or five days in jail and chose the latter. In Justice Reeder's court today the hearing of the A. H. Sheldon vs. Burt Lincoln litigation was adjourned until Sept. 9. The case of F. A. Taylor vs. Chas. Dunn was settled out of court.

FACTORY FORCED TO CLOSE DOWN

Slowness in the ripening of sweet corn crop on account of the cold weather conditions, has forced the Hohenadel Canning factory to stop work on the new crop which was begun last week. Yesterday the canning was started as usual but at nine o'clock operations were suspended because of the lack of material. Earlier in the week the plant was shut down several times on account of the scantiness of the first corn brought in.

Will Start Saturday

It is thought that by Saturday there will be enough of the corn ripe and brought to the factory to resume operations and a renewal of the canning will be begun on that morning. By next week the supply, it is believed, will be sufficient to keep the work going until the cans have been transferred to the cans.

MISS BOYNTON MAKES A PLEA

MISSIONARY LECTURER TELLS OF INDIANS.

SPEAKS AT BAPTIST CHURCH
Eloquent Appeal Has Result—Young Ladies Society Will Aid in Work.

Present conditions among the American Indians were described by Miss Boynton, of Chicago, at the Baptist church last evening. The lecturer, who was greeted by a large audience, spoke in the interests of the Woman's Home Missionary society of the west, and told not only of the needs of the western Indians, but also of the beginnings of the Missionary society in Chicago, of its founder and the different phases of its present day work.

Miss Boynton, who is an active missionary herself is at present representing the society among the churches and is traveling to different cities soliciting help.

Talked To Local Society.

Yesterday afternoon a meeting of the young ladies' mission society, which is a local organization connected with the church, was held and Miss Boynton spoke to the members on the extension of the work of the Home Missionary society. She told of the needs of two representatives in Cuba and in Central America, and asked the young ladies society to assist in the support of one of these missionaries. She told something of the life and conditions in those far off lands and so interested her audience that they preferred to lend their help to both the missionaries rather than confine the donations to one of them.

Western Indians. The Indians that were described were those on the reservations in Oklahoma and the territory and interesting accounts of their lives and customs and the conditions which they live in were given as well as the aid which they stand in need of from the people who devote their lives to this work.

Upon his return from Chicago Mr. Myers, found a letter canceling the date of The Girl From Chili, company for Saturday night. The company will not be taken out on the road until later in the year.

One night while the Root-Gardner fight pictures were being exhibited in a large city, the chief of police sat watching them, and after the principals had left the ring, he remarked to a spectator that he wished all fights were as clean as that one, and put the same way, for then he could sit and enjoy the bout without having to "pinch" anyone.

The Polyscope has reproduced one of the fastest fights that ever occurred in the ring, and so true are the pictures, that on more than one occasion an excited spectator has arisen from his seat and implored Gardner to knock Root out.

Women and children enjoy the pictures, for they can see everything that occurred at the ringside, the work of the fighters and the method of handling a fighter, which is alien in itself. The gentle sex enjoy the fight too, for after one exhibition they want to see a second one.
